

StarterKit Cam

Security system with visual alarm verifications

Fast connection to an alarm response company	Automated security with scenarios	Three communication channels to remain online	Animated series of photos to verify alarms
--	-----------------------------------	---	--

Protect your home from intrusion

StarterKit Cam instantly notifies you and your security company in case of a housebreaking. Within 9 seconds from an instant motion alarm you'll receive a photo confirmation to evaluate the situation.

Control your security system from anywhere in the world with a smartphone. Don't worry about the blackouts and Internet signal interruptions. The hub will remain on guard of your property thanks to a back-up battery and 2 SIM cards.

StarterKit Cam kit consists of four devices

Hub 2

The hub controls all security system devices. And notifies you about any activity back home using push notifications, SMS and phone calls.
